- Carrying handle
- Outdoor
- Ideal for terrace
- 3.7 kg
- Carbon heating elements
- 600 / 1200 W
- 22.6 x 75.5 x 22.6 cm

FACT SHEET : TURM INFRAROT - Infrared lamp

The **TURM INFRAROT** radiator with the **unique 360° system** provides optimum warmth both indoors and outdoors. With this device you can stay outside longer even in cooler evenings. It creates a cosy and romantic atmosphere in the room, on the balcony, the terrace or in your garden. Due to the **IPX4 splash water protection** it can also be used in slightly humid environments.

The radiant heater uses a r**evolutionary carbon technology** that allows you to save money (less power consumption!) while still heating up very quickly. The device has a stable base and is absolutely safe due to the **touch protection** and the anti-tilt device. Thanks to the compact and modern design, the spotlight does not take up much space and can - for example - be placed next to the table. The **horizontal 360° oscillation** distributes the heat evenly and over a large area. The device is almost noiseless at the same time. Thanks to the practical carrying handle, the device can be easily transported from place to place.

TECHNICAL DETAILS

- Power: 600/1200 W
- Voltage: 230 V
- Color: black
- Dimensions: 22.6 x 75.5 x 22.6 cm
- Guarantee: 2 years
- Certified: CE

7 640110 920626

TECHNICAL SPECIFICATIONS

- Revolutionary carbon technology
- Modern, stable cylinder design
- Compact
- Large-area heat distribution
- Oscillation horizontal: automatic 360
- IPX4 splash water protection
- Tilt protection (Only suitable on level & straight ground)
- Protective grid
- Both in outdoor and for indoor use
- Carrying handle
