DUBLIN

CERAMIC

The small and compact fan heater: Ideal for the transitional period and in between. The advantages of the ceramic heating element are **high resilience** and a **long service life**. You have an immediate heat output as you do not need a **start-up time** like conventional fan heaters. They have a **very high heat efficiency** and can be exposed to **extreme temperatures**. Full heat output with **less power consumption**. Heat your rooms energy-consciously. With DUBLIN you save up to **20% energy**! Safe and trouble-free operation, **78% more power** compared to conventional radiator systems.
