FACT SHEET : DANA 36 - Clothes drying rack

The powerful and energy-saving **DANA 36 laundry rack** takes up little space, both for drying and storing laundry, and is also gentle on your laundry. It has **3 floors with a total line length of 27 meters** and is collapsible, which allows to use only half of it in a small space and to store it easily. Thanks to its light construction, it can be easily transported from room to room.

The unit is heated to speed up the drying process. Low energy consumption makes it **cost-effective and environmentally friendly**. **DANA 36** has a comfortable working height and user-friendly operation. The drying time depends on the room and air conditions.
