EIGER
HOT TUB

EIGER has a white, fibreglass-reinforced inner tub. For ideal isoloation, thermo wood is used for the outer panelling. The bath tub with an outdoor oven is more comfortable as there is more space for people. It makes the water less polluted, minimises the risk of burns when bathing and is easier to keep clean. 4-7 people can enjoy a bath together or a cosy, relaxing evening in it. Suitable for families with children.
