AIR FRESH 5S

AIR FRESHENER

Combination devices are particularly efficient! The cold fogging refreshes the sultry air, the power of water cleans the air. Dirt and suspended particles are washed, leaving air to feel good. Due to the increasing environmental pollution, the air quality is permanently decreasing - global warming requires devices to improve our indoor air.

Four functions in one device! The device offers both fan and humidifier functions and distributes cool, moist mist. The cooling, refreshing, purifying and humidifying functions can be used together or separately.
