DRAGON 800°

GAS GRILL

Juicy steaks in a few minutes or crusty fillets over many hours. Experience a full flavor experience with DRAGON. The device can be heated between 400 and 850 ° C. You heat your meat on the grill grate made of stainless steel. The trays serve as a fat collecting container during roasting as well as turning, so that your kitchen and the device remain clean.

Thanks to the good insulation, the outside remains cool and safe. Thanks to the fat-free system, excess fat is removed and a natural grilling process is possible. The handle allows you to remove the trays without getting burned!

29 X 23 cm

ELECTRONIC IGNITION

STAINLESS STEEL

TECHNICAL DETAILS

- Power: 2000 W
- Color: black
- Dimensins: 31 x 36 x 33 cm
- Weight: 16 kg
- Guarantee: 2 years
- Art.-Nr.: 30500113

7 640110 927984
