COMBUSTAR 20L

max -40 ° C

29 x 24 x38 cm

16.5 kg

SONNENKÖNIG OF SWITZERLAND

For heating petroleum

FACTSHEET : COMBUSTAR 20L - Combustible for petroleum heater

The modern fuel for paraffin heaters – put an end to odorous emissions and combustion residues. The fuel was specially developed for use in living, hobby and work rooms, tents and caravans and it guarantees soot and smoke-free combustion. The special fuel for paraffin heaters. Put an end to odorous emissions and combustion residues. Maximum fuel value and a balm for the heating unit. No soot or smoke build-up.

Efficient: A special refining process makes the Combustar fuel extremely efficient down to the last drop. **Economical:** Combustar has a particularly high fuel value. This ensures optimal heating with low fuel consumption. **Clean:** Combustar is a soot and smoke-free fuel and it does not leave combustion residues. **Handy:** Combustar is available in 20-litre canisters that are easy to transport. **Safe:** Combustar's flashpoint is around 62°C. The fuel's special colour means there is no risk of mistaking it for another fuel. **Storage:** Can be stored at temperatures as low as –40°C.

Technical informations

- Tank capacity: 20 Liters
- Weight: 16.5 kg
- Dimensions: 29 x 24 x 38 cm
- Combustar's flashpoint is around 62 °C
- Storable until a temperatur of 40°C

Specifications

- Handle
- Special color to avoid confusion with another product
- High flashpoint
- Big production of the heat, this means a low energy consumption
- Spout incl.

Packaging informations
