COVERPAVILLON

2.44 x 3.7 – 6.1 m

SONNENKÖNIG OF SWITZERLAND

FACTSHEET : COVERPAVILLON

Simple – Insulated – Innovative – Safe – Fully Automatic

Long-life, energy-saving and safe!

The cover gazebo is manufactured using durable materials and is very energy-efficient.
The cover itself is fully insulated to prevent heat from escaping. The lifting system is similar to a garage door and uses very little electricity. The gazebo cover fits onto most hot tubs, offering a tight, seamless connection.

Unlike traditional covers, this cover gazebo is made from extremely robust plastic and is therefore almost maintenance-free.

The cover gazebo is operated using a key so that the hot tub can be safely locked. This prevents the hot tub from being used without your permission.

Technical informations

- Width: 2.44 m
- Length: 3.7 m bis 6.1 m
- Produced in Canada
