# FACTSHEET : CUISINE - Gas grill

Thanks to the barbecue unit's fine design and workmanship, your meat is ready to enjoy in almost no time – tender and delicious! The handy grill cover is an excellent heat retainer and the two side shelves give the grill a striking elegance. The barbecue has two cooking grills, a swivelling warming grill and a roasting dish made of cast-iron.

The cast iron burners heat the ceramic briquettes which in turn heats the food placed on the grill. Any juices that naturally flows food dripping onto the ceramic briquettes disposed below and evaporate. This vapor gives the food its unique flavor from grilling, for meals to be remembered with pleasure!
