SONNENKÖNIG OF SWITZERLAND

FACTSHEET : MAXIMO 2000 LCD - Ceramic heating

Its cutting-edge **techno design and ease of use** make this the perfect heater for any space. The Maximo 2000 LCD has three pre-set programmes: LOW and HIGH with pre-programmed temperature setting, as well as AUTO, which allows you to select the temperature. The multi-layered heating elements achieve an even and **optimal heat distribution.** A stable and pleasant temperature is achieved with the radiant heat warming the surfaces of objects and the air in the room. No additional dust is swirled up and the air stays warm and pleasant.

100% warmth with only 66% energy consumption – the unit is eco-friendly and **saves you 1/3 on electricity.** The **ECO function** is activated when the operating temperature has been achieved. The ceramic plate retains a constant, optimal warmth without any loss and it emits this heat at full capacity, **using 50% less energy.** With this eco-friendly ceramic thermal-wave heater you can save up to 33% on electricity compared to standard convector heaters.

Technical informations

- Power: 2000 Watt
- Color: black, silver
- Certified: CE
- Guarantee: 2 years

Specifications

- With LCD display and control panel
- Save up to 33% on electricity
- Low energy consumption
- With thermostat and timer
- Indicator of the room temperature
- Attractive design
- Floor or wall-mounted appliance
- With ECO function
- Spray water protection
- Overheating protection
- Automatic frost protection
- Size of the room till: 65 m³
