SONNENKÖNIG OF SWITZERLAND

FACTSHEET : EXCEL 300 - Gas grill

The Excel 300 is the perfect combination of modern design and maximum barbecue pleasure! Thanks to the lava rocks, you'll never have to eat burnt meat ever again because this natural material absorbs the meat juices, preventing excessive build-up of smoke or flames.

The lava rocks stop your meat from burning by absorbing the meat juices, thereby preventing excessive build-up of smoke and flames. The steel burner is made of aluminium and has two controls and a Piezo ignitor. The warming rack can be swivelled from side to side and the grill has two foldable side tables. The cover and the grill body are assembled ex-factory.

Technical informations

- Gas barbecue
- Weight: 28 kg
