SONNENKÖNIG OF SWITZERLAND

FACTSHEET : SECCO 75 - Tumble dryer

Room air dehumidification in cellar rooms, living rooms, warehouses and archives, as well as laundry drying. Gentle laundry drying as in the wild! The powerful, energy-efficient tumble dryers, made of galvanized steel, are mounted on the wall and are therefore not in the way. The device has a simple and clear operation. Three different programs can be selected to allow your laundry to dry. The maintenance-friendly cold circuit has a service connection, a condenser and evaporator made of copper tubes with mounted aluminum fins, as well as a demand-controlled hot-gas defrost for optimum operation in cool rooms. The humid room air, which is sucked in by the fan into the lint filter and the condenser, is separated as condensed water. The moist air is reheated and blown back into the room. The drying time depends on the room and air conditions.

MADE IN EUROPE
3 Jahre Garantie

Technical informations

- Power: 550 W / 230 V
- Color: blue
- Certified: CE
- Guarantee: 3 years

Specifications

- Dehumidification :1.44 kg/h
- Drying time: 5 h 12 min.
- Power consumption 0.34 kWh kg (dry laundry)
- Energy class: A, Timer
- Drying performance: 7,5 kg
- Dry automatic
- Refrigerant R-134A, 440 g
- Touch control, room dimension till 450 m^3
- Rotary knob for humidity adjustment
- Modern and resistant plastic housing
- Cable: 2 m, drain hose: 1 m
- Temperature range: + 3°C bis + 32°C

Packaging informations

1 packaging content	piece
1 pcs. number on the pallet
