SONNENKÖNIG OF SWITZERLAND

FACTSHEET : ZEN - Indoor Fountain

This stone fountain not only helps you to achieve an optimal level of air humidity, it also serves as an attractive accessory in your home or office.

The large river pebbles, which are also used for hot stone treatments, lie in a harmonic pattern on the round slate dish. Together with the water, this combination of river pebbles and slate promotes the flow of energy in the chakras. The sound of the flowing water calms the mind and creates a relaxed atmosphere.
