KERO 300

PETROLEUM HEATER

Heat anywhere and at any time! Ideal for use in the alpine hut, allotments and construction shacks. Heat modern with turbo power. Thanks to the **tilt and shock protection**, the devices are very safe. The heater is easy to operate and offers **maximum comfort**.

The tilt and shock protection prevents further operation of the device, for example, if it should fall over. The **oxygen sensor** monitors the room climate. As soon as the oxygen supply is no longer guaranteed, the device switches off automatically. The tank can be easily filled with either the electric pump or the hand pump.
