OFR 9 L
RADIATOR

3 MODUS

WIFI

15-20 m²

The thermal oil radiators spread a cosy warmth on cold, frosty days and make you forget the cold. Not only do they have an attractive design, they also have two heating levels, intuitive touch operation and a Wi-Fi controlled app, which makes regulating the room air even easier. Thanks to the overheating protection, the devices switch off automatically if it gets too hot. The oil radiator has wheels and a handle so that it can be easily moved to other rooms.
