PIC 12
MOSQUITO KILLER

DIRECT CONNECTION

UV-A LED LIGHT

PROTECTIVE GRILLE

The insect killer uses a powerful UV-A LED (365 + 395 nm) to attract flying insects, which are destroyed on contact with the safe high-voltage grids. The fireproof ABS housing ensures durability and the protective grids guarantee safety. Easy to plug into a socket, the device offers an environmentally friendly, chemical-free solution for indoor insect control. An easy-to-clean drip tray provides additional user-friendliness.
