PIC 77
MOSQUITO KILLER

IP 20 PROTECTION

UV-A LED LIGHT

INDOOR USE

This insect killer uses an efficient UV-A fluorescent tube to attract flying insects, which are reliably destroyed on contact with the galvanized high-voltage grids. The device features a removable drip tray for easy cleaning and is made of fireproof ABS material for maximum safety. It is environmentally friendly without the use of toxins or sprays. The insect killer can be hung or set up and is suitable for indoor use. With its IP20 certification, it is dust-proof and ideal for use in the home.
