SECCO PICCOLO 2

DEHUMIDIFIER

Excess moisture in your living spaces can negatively affect both the climate balance and your health. The Secco Piccolo 2 is an ideal solution for small, poorly ventilated areas such as walk-in closets, pantries, and bathrooms.

The Piccolo 2 is an energy-efficient thermoelectric device that dehumidifies 280 ml/day. When the 900 ml water tank is full, it automatically shuts off. It operates quietly and with minimal vibration since it does not use a compressor motor.
