SECCO 10L
DEHUMIDIFIER

DRAIN & HOSE

150 m² / H

10 l / 24 H

The SECCO 10L reliably ensures a comfortable and dry indoor climate. With a dehumidification capacity of up to 10 liters per day, it is suitable for rooms up to approximately 20 m². Two fan speeds, a digital display, a 0–24-hour timer, and a memory function make it easy to use. The 2-liter water tank automatically shuts off the unit when the tank is full. A drain hose is available for continuous operation. Thanks to R290 refrigerant, frost protection, and a temperature range of 5–50 °C, the SECCO 10L is highly versatile.
