SECCO

SONNENKÖNIG OF SWITZERLAND

SECCO - Tumble dryer

SECCO – The powerful compact devices for a gentle drying of your pierced.

We are proud to be number 1 in this category of products! The products of the DRY series are powerful and energy-efficient, dry quickly and naturally your laundry as if it were stretched to ,open air, under the sun and with a breeze of wind.

Advantages: New technology Biodry Dry-Logic, hot gas defrost, heat recovery and energy saving, retains dust and operating at a starting temperature of 8 ° C.

Efficient: The powerful technology ensures optimum air circulation inside the drying chamber and provides good speed and a gentle drying of linen, all with the best possible energy level: A1. More you can not!

Energy savings and additional benefits: The principle of condensation with heat recovery, dehumidifies the air and keeps energy in the form of heat in the room. Therefore, you can save up to 50% energy compared with conventional dryers. They keep the room dry and also absorb moisture of the walls, to prevent the formation of mold and thus possible damage to health.

User-friendly: The reliable humidistat controls the drying process and automatically switches off the device to achieve the desired degree of drying.

Clean: No enactment of dirt or odor and no residue. The moisture removed from the laundry, can be either collected in a bucket is made to flow through the direct discharge.

Practical, maintenance-free: The devices can be easily switched on and off and are maintenance free, only the suction filter must be cleaned from time to time. The wall mount makes it space-saving.

Sure: The devices are CE marked and have a protection against the overflowing water

Form: The units are equipped with compact size, attractive colors and an appealing design.
